

Listing of Claims:

This listing of claims will replace all prior versions, and listings, of claims in the application:

Claim 1 (currently amended): A mask, wherein and mask comprises:

a mask formed in a decorative pattern from a single piece of a substantially pliable material;

a first attachment member on one portion of said mask integrated in said pattern of said mask for attachment to a first portion of an eyeglass frame; and

a second attachment member on a second portion of said mask integrated in said pattern of said mask for attachment to a second portion of an eyeglass frame.

Claim 2 (original) The mask of claim 1 wherein said substantially pliable material comprises: paper.

Claim 3 (original) The mask of claim 1 wherein said substantially pliable material comprises: cardboard.

Claim 4 (original) The mask of claim 1 wherein said substantially pliable material comprises: plastic.

Claim 5 (original) The mask of claim 1 wherein said substantially pliable material includes: fabric.

Claim 6 (original) The mask of claim 1 wherein said mask further comprises: said mask formed from said substantially pliable material by paper-cutting.

Claim 7 (original) The mask of claim 1 wherein said mask further comprises: said mask formed from said substantially pliable material by die-cutting.

Claim 8 (original) The mask of claim 1 wherein said mask further comprises: said mask formed from said substantially pliable material by molding.

Claim 9 (currently amended): The mask of claim 1 wherein said mask further includes:
said first attachment member is ~~bent~~ folded inward from said single piece
of a substantially pliable material in order to be attached to the first portion of an eyeglass
frame; and

said second attachment member is ~~bent~~ folded forward from said
single piece of a substantially pliable material in order to be attached to the second
portion of an eyeglass frame.

Claim 10 (original) The mask of claim 1 wherein said mask further includes: said mask
is bendable in order to accommodate differing widths of eyeglass frames.

Claim 11 (original) The mask of claim 1 wherein said mask includes: forming the entire structure of said mask from a single sheet of said substantially pliable material.

Claim 12 (currently amended): A mask, wherein said mask comprises:

a mask formed in a decorative pattern from a single piece of a substantially flat material;

a first attachment member on one portion of said mask integrated in said pattern of said mask for attachment to a first portion of an eyeglass frame; and

a second attachment member on a second portion of said mask integrated in said pattern of said mask for attachment to a second portion of an eyeglass frame.

Claim 13 (original) The mask of claim 12 wherein said substantially flat material comprises: paper.

Claim 14 (original) The mask of claim 12 wherein said substantially flat material comprises: cardboard.

Claim 15 (original) The mask of claim 12 wherein said substantially flat material comprises: plastic.

Claim 16 (original) The mask of claim 12 wherein said substantially flat material includes: fabric.

Claim 17 (original) The mask of claim 12 wherein said mask further comprises: said mask formed from said substantially flat material by paper-cutting.

Claim 18 (original) The mask of claim 12 wherein said mask further comprises: said mask formed from said substantially flat material by die-cutting.

Claim 19 (original) The mask of claim 12 wherein said mask further comprises: said mask formed from said substantially flat material by molding.

Claim 20 (currently amended): The mask of claim 12 wherein said mask further includes:

said first attachment member is ~~bent~~ folded inward from said single piece of a substantially flat material in order to be attached to the first portion of an eyeglass frame; and

said second attachment member is ~~bent~~ folded inward from said single piece of a substantially flat material in order to be attached to the second portion of an eyeglass frame.

Claim 21 (original) The mask of claim 12 wherein said mask further includes: said mask is bendable in order to accommodate differing widths of eyeglass frames.

Claim 22 (original) The mask of claim 12 wherein said mask includes: forming the entire structure of said mask from a single sheet of said substantially flat material.

Claim 23 (currently amended): A mask, wherein said mask comprises:

a mask formed in a decorative pattern from a single piece of a
substantially pliable material;

a first attachment member integrally formed on one portion of said mask
and ~~bendable~~ foldable inward for attachment to a first portion of an eyeglass frame; and

a second attachment member integrally formed on a second portion of said
mask and ~~bendable~~ foldable inward for attachment to a second portion of an eyeglass
frame.

Claim 24 (original) The mask of claim 23 wherein said mask further includes: said
mask formed from a single sheet of said substantially pliable material.

Claim 25 (original) The mask of claim 23 wherein said mask further includes: said
mask formed from a substantially flat material.

Claim 26 (currently amended): A process for using a mask having a first
attachment member and a second attachment member, said process comprising;

attaching said first attachment member to a first portion of an eyeglass
frame by folding said first attachment member; and

attaching said second attachment member to a second portion of an
eyeglass frame by folding said second attachment member.

Claim 27 (original) The process of claim 26 wherein said process further includes:
forming said mask from a substantially flat material.

Claim 28 (currently amended): The process of claim 26 wherein said process
further includes:

forming said mask from a single piece of a substantially flat material;
~~bending~~ folding said first attachment member inward; and
~~bending~~ folding said second attachment member inward.

Claim 29 (original) The process of claim 26 wherein said process further includes:
forming said mask from a substantially pliable material.

Claim 30 (original) The process of claim 26 wherein said process further includes:
bending said mask in order to accommodate differing widths of eyeglass frames.

Claim 31 (original) The process of claim 26 wherein said process further includes:
forming said mask by paper-cutting.

Claim 32 (original) The process of claim 26 wherein said process further includes:
forming said mask by die-cutting.

Claim 33 (original) The process of claim 26 wherein said process further includes:
forming said mask by molding.

Claim 34 (currently amended): A mask wherein said mask comprises:

- a face portion of said mask;
- a first attachment member integrally formed with said face portion and ~~bendable~~ foldable inward to attach to a first portion on an eyeglass frame; and
- a second attachment member integrally formed with said face portion and ~~bendable~~ foldable inward to attach to a second portion on an eyeglass frame.

Claim 35 (original) The mask of claim 34 wherein said mask includes: said mask is bendable to accommodate differing sizes of eyeglass frames.

Claim 36 (original) The mask of claim 34 wherein said mask includes: said mask formed by paper-cutting.

Claim 37 (original) The mask of claim 34 wherein said mask includes: said mask formed by die-cutting.

Claim 38 (original) The mask of claim 34 wherein said mask includes: said mask formed by molding.
